4/18/2006

Please Note that I have

Send the clerk and court report that I have

Wrote on meters and Gravity Tunnels and

motion to the clerk of court to add this

to my case, Because I have sent to the U.S.

Senate, U.S. Army and Navy of letter

No Return. another meter Gravitational Tunnel
 will be come together in may and June of this
 year, 2006. and it may be 47% to 77% Greater in size
 and area. I would like this report to please be add
 so later no one can said I did not tell someone.

Jeffrey Gibson May 13/2006

Returning to U.S. District Court CA.
 Thank you for your time and help.

Reveal one meters Earth
Penna, area Harrisburg outer area
and other area of the Earth, from
Dec. to Feb. 2005 to 2006

Meters Hit Report Nov/19/2005

Sir,
I am send this Reveal one meters Hits on the
earth and other area of Earth from Dec. 2005 to Feb
2006. Please Note Harrisburg outer area was Hit by
a meters Hits Dec. to Jan 1932. For the ~~last~~ past
4 weeks meters from midnigh to 4:37 Harrisburg Pst Time
as a huge being come down - without a heat Tail.
This could very well point to a up and coming ~~Storm~~ Earth
Hits. Please also note that I have new meters and Pinel
meters from 1932 Hits, I sir can not send in the mail,
Please send someone here to get them.

Thank you for your time
Jeffrey Gibson

NOV/21/2005

Graventional Tunnels and Natural Gravity Tunnels

Earth doors are made from a natural earth graventional Tunnels, that has one ~~big~~ end bigger than the other one, and that the graventional middle of the Tunnel would make a natural Inter Space energy area to the other side of the Tunnel.

door would be 100 ft to 40 above a give earth grown area and equal in the oceans as well. Planes and Ships and Subs have at time past thourth one. The earth doors would be open at give time of year. Not every day.

a natural earth door gravity Tunnel can then be used to made a natural earth to unviseral door and natural Time doors, the power would come from the earth and unviser.

Jeffrey Gibson

Balls of energy mass.

a meter that is Balls of gravitational energy mass that comes in to earth moving by its own gravitational core energy. This said, it would come in to the earth at its own speed, which would be very slow. But the normal gravitational waves field around the earth, may make it come apart at 100ft to 275ft from the ground.

Mars, every 500 to 2000 year has a moon come back to Mars from Jupiter. This is because Mars and Jupiter have Natural gravitational Tunnels, that are very super powered, up, from time to time by "Solar Winds Super gravitational" Sun gravitational Tunnel or Tunnels, please note gravitational Tunnels do not go in ~~straight~~ lines. The Asteroids area ~~between~~ between Mars and Jupiter, was at one time, was Mars 2, a Sun Super gravitational Solar Wind hit it when all 3 planets were just of center balance point. Mars 2 was pulled apart. But held in the same space area by the other 2 planets natural Inter Space, Space gravitational fields.

Jeffrey Gibson

Jeffrey Gibson
 1916 Franklin Ave
 Harrisburg PA 17107
 Nov/19/2005

Natural Earth gravitational Tunnels from outer space area to tunnel above the earth, is being natural made at this time.

This tunnel in areas are ~~not~~ made every 140 to 780 year or less. This gravitational Tunnel areas have

(1) less earth gravitational energy and air inside them, and this stated a meter and or meters coming in from outer space could go from outer space to hit the ground.

(2) gravitational great energy waves area Tunnels may have super waves of gravity to slow incoming meters down.

(3) Dec/20/2004 a mass earth energy wave area is hit. This force changes the normal earth gravitational natural counter gravitational points of rotation, look at all the hurricanes this year.

(4) A. Natural Earth to Earth doors, Jeffrey Gibson
 B. Natural Earth to universal doors
 C. Natural Earth Time door and universal Time doors
 and Natural Earth Time Inter space area doors
 D. Natural gravitational Tunnel doors

Universal Rotation

Jan/25/1989

In this theory I will show how our
~~universe~~ universe was made and how
it rotates.

"Notes"

$$esm = (g) + e + w = smc$$

energy times the space times the mass of
pure energy and space (pure space, and pure energy
are the two things that are, outside our
universe. I will equal the gravitational energy
added with the gravitational wave or fields of
gravity.

That will give the total power of the "universe"
that was made from the first part of the theory
and that will equal the area of space, ~~and~~ times
the matter of mass times the given speed.
In which the gravitational energy will make
rotation and the energy mass and or matter
mass energy, (movement) or give off
power to rotate in that area of space area.

Eastern Division Clerk Office
 2470 Twelfth St. Rm 134
 Riverside CA 92501

Jeffrey Gibson
 1916 Franklin Ave
 Harrisburg PA 17107

$$esm = (g) + e + w = smc$$

(1) e = energy, be that energy pure or energy that is made within the universe.

pure energy is a given size and shape of energy. ~~But not~~ energy ~~no~~ matter, how big or small much take up space area and space.

(2) S = Space, There are 3 or more kinds of Space.

(A) The Space outside our universe which is pure Space. Total pure Space.

(B) Space, the inside of the universe, ^{of} which as mass of matter and energy mass ~~of~~ matter.

(C) Space; interSpace The space area inside the ~~the~~ Space in a universe, but ~~not~~ Not pure Space. Total pure Space have no interSpace area.

(3) m = mass of space and energy, is when pure energy being to change in an area of pure Space.

This change makes Super pure waves of gravity, and pulls other areas of pure energy to it. at this time another Space area is made, our universe.

equals

(4) (g) = gravitational energy space mass.

as the universe was taking on a size and shape, the gravitational pure energy, but not total pure gravitational energy space mass, IS the complete power of the universe. That give of gravity waves or fields.

Universal Rotation.

Jan/25/1989

$$esm = (g) + e + w = smc$$

- (5) $e + w$ = gravitational energy and waves or fields inside the "universe"
- (6) s = inter-universal space that has universal "Time" fields and interspace in the space area in the universe.
- (7) m = matter or mass in the universe, be it matter of mass, all the area inside universe or all the area of "Time" in the universe and all the interspace area of the universe.
- (8) c = Speed, as all of this theory comes to equal the speed outside of the universe, in which our universe is moving through pure space. "universal rotation" of space energy mass and gravitational energy matter of mass, and the 2 kinds of "Time"
The energy speed of the universe that makes in universal "Time" and sub time, sub time space area and
The Time area outside and around our universe, which is "Time" energy that gives and controls the other Time area of universal Time.

This theory not only show that the universe rotates But also that the universe has a given energy space mass and matter

Jan/2/2005

[Earthquake Dec/26/2004] [Page 1] Jeffrey Gibson
1916 Franklin Ave
Harrisburg P.A 17109

India ocean. Rotational movement of universal galaxies and Solar System. The Earth may have Rotation in to one.

- (1) a Super Slow moving meteor, astor, Spaceal energy of matter mass and or Solar gases. ~~an~~ an megant Super gas ball, Not in size of Spaceal area but in Total energy per mass. That was Send off by our Sun.
- 2) an universal out Spaceal energy and inter normal Spaceal area gas ball. That was made in or out Side the universal spaceal area. That Never moved in to the Earth → unisver → galaxar moved in to it.
- 3) an Comis energy Spaceal mass and matter ball or area That is moving at or not. may have be puted in to the Earth by a Earth natral door opening to the India Ocean Dec 23 to 26. 2004. Give a normal earthquake [Super energy.]
- 4) The Earth has natral earth doors that open each day and night 7 to 21 mins. or longer. birds lilce Ridons and whales & others use them. Natral Time doors open every 40 min, unisveral doors every 11 to 33 min. per total earth rotation. 11 natral doors can and do open at Earth to Earth at me and Earth to unisver and soon on.

Eastern Division Clerk office
3470 Twelfth St. Rm. 134
Riverside CA. 92501

Jeffrey Gibson
1916 Franklin Ave
Harrisburg P.A. 17109

This theory also show the (Time energy space), inside the ~~universe~~ universe and around the outside of the universe. and this theory gives weight to a very old idea that are a universe has a know size, shape, and total energy space that has "Speed" and is moving and rotation.

We ~~to~~ now that anti-matter is. This theory shows that a universe of matter is, and a anti-matter may be, in the same areas of pure space.

Jeffrey Gibson
1916 Franklin Ave
Harrisburg P.A. 17107

Equal balance Rotation

Something that has stoped or not
Seen to move.

(1) Wall, Tree, mountains and others

are in a State of equal balance
Rotation with the Earth, Solar System

and Unisver. The earth is moving at 33.000 hour.

So equal balance Rotation is equal to 33.000 per hour.
That may also be given the Speed of the Solar System
and then some. and unisver ~~could~~ could be 33. billion
or 33.7 miles per hour.

(2) Natural Time door, natural earth doors and natural
unisveral doors would be only because of
equal balance Rotation. This would mean that

one, two and three doors can open at the same
give spacial place and would have to.

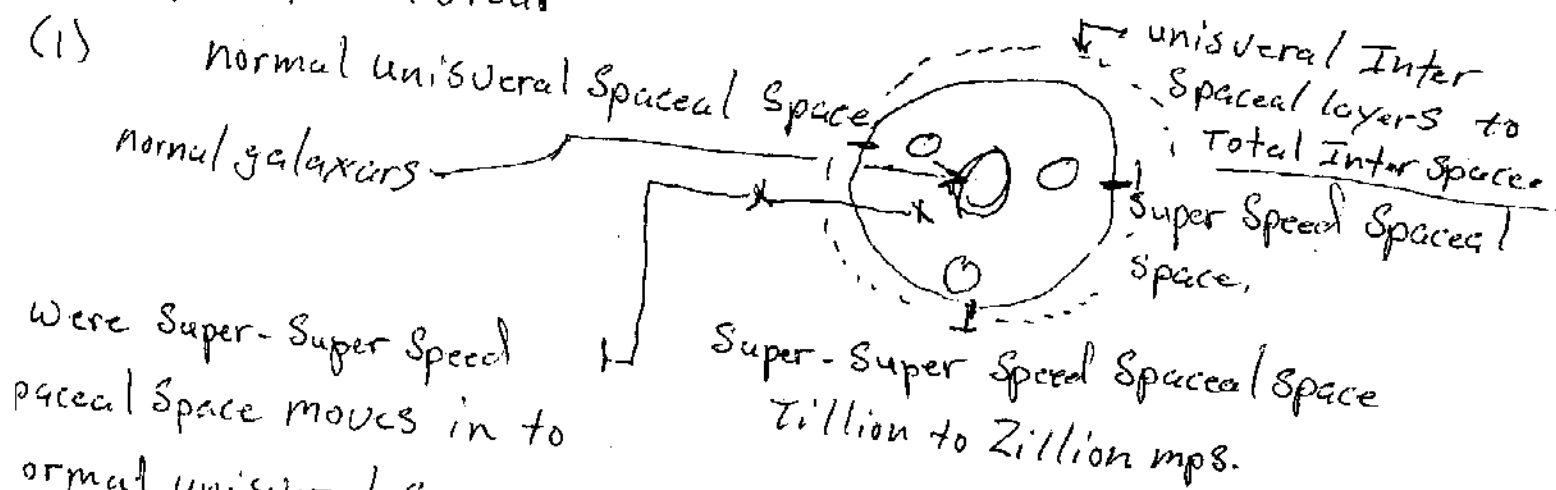

In side the unisver and around the outer space area
of unisver. Not an unisver to unisver natural door.

[Equal balance Rotion]

Jan 10 / 2005
Jeffrey Gibson

The State of Space, energy and Spacial mass and matter.
an "idea" on Stopping, Stopped, and Just no more.

No more in around the earth, Solar System, ~~the~~ galaxy's
and unisver cannot Truthly be. only movement to
total Stop "may" only be outside the normal/unisveral
Spacial energy area. This could give weight of idea
to why the unisver has a given Size, Shape and energy
mass per Spacial area. This could then be Stated that
one Super unisver, named unisveral Spacial area one and 11 to
144,000 other normal Size unisvers equal in given balance
Rotion per Spacial area.

Jeffrey Gibson

Jan 12 / 2008

Work page on Equal Balance Rotation

- (1) One to ~~40~~⁴⁰ pages on what did ~~the~~ and could have ~~the~~ ~~the~~ in Indian Ocean. Reports, on Astrophysics and geophysics maps on the circa 24 hours before and on that days of.
- (2) Super slow moving something ~~4~~⁴ to 12 pages
The earth may have 100s to millions of them around each day.
- (3) universal outer space energy and layers of normal space and Inter Space. 3 to 4 pages
- (4) Computer Art make up, one on each part of the work and or Just one Computer move.
- (5) ~~comisic~~^{comisic} energy 1 to 2 pages?
- (6) Earth normal doors [1 to 3] Time doors, and universal doors. (note this will ^{each} show that planets and universe is living State.
- (7) Equal balance Rotation 1 to 7
- (8) Counter balance Spaceal area Rotation 1 to 3 pages an idea only. [comisic energy could it be outer layers of Inter Space universal to universal normal doors.
- (9) normal doors Theory or ideas how to open them and use them to move from one area of earth to other and so on.
Robins and whale use natural earth doors, what others.

Barry Gibson

(12) Run a 100 year history (Ocean) as to what may have been. Ocean wave gravitational earth points, and moon and other planet and Solar actions 7 days before Dec/26/2004 India Ocean, [look in to Japanese Shipping war 2. on and around that area of the ocean, and a Total earth geo-gravitational maps 30 days before and on that day.

(13) The Total energy per 4 parts of earths gravitational fields, as to Reports of peoples normal weight being great per mass or less per mass. Then Run a Computer mapping on all lighting ~~Sensors~~ Hits on Dec/26/2004 around the earth. Could the earthquake Dec/26/2004 power open 11 to 40 or less earth to earth to Time doors and earth to universal doors. [and or Send Spaceal energy Through and un-natural earth, Time, universal door.]

(14) Run a Computer math arc lines to the earthquake center and Then over layers it with all Cosmic Rays, Solar Spaceal energy on and in the earths ~~orbit~~ Orbiter around arc Sun, were their Small or big Sun Spots. Dec/23/24/25/and 26/2004. Note This Total earthquake force may have open some doors up to 11 to 40 days. Should this "be". Cosmic Rays may show then in a state of open.

Page 2 Jeffrey Gibson Jan 12 / 2005

Equal/balance Rotation Note to use its power

- (1) Spacial Equal balancing Rotation] good Spacial energy mass and matter that could be use in ideas and Suggestion. To help all.
- (2) Equal balancing Rotation doors have all kinds Information. a universal Bank. good and bad.
- (3) movement from one earth door to another, you would not need equal weight per Spacial mass, and energy.] Time doors and universal doors you "may" need equal Spacial space of energy, mass, and matter or Just an earth door and Time door to go in to past. earth door and Time door and universal door to go in to ~~other~~ days to come, and years to come. ? an earth door can open from the past and a person seeing This from now. would hear, see what is being earth door [Universal Two way Time door] one could move in that year one way. a Two way earth-Time door needs a universal door, so you can come back to now. Note you can Not un-do the equal balance Rotation Spacial balance. You can Not change History. of the past, Just people. on days and years to come ? ? ? maybe you could change it total.

Notes on Cosmic Spaceal Space to Inter Spaceal Space
That are equal balance within Sub-Inter-Spaceal Space
by unisveral inter gravitational fields and a given
Smaller and equal outer unisveral Rotation Spaceal Space
energy be it New, old or something basic natural.

(1) Normal Spaceal Space area \rightarrow Cosmic Spaceal Space energy
mass, walls and or boarders to outer Spaceal Inter
Space. Something moving at a Super Slow Speed. would
Then by its Super Slow Speed, be pushed out of normal
Spaceal Space area in to the walls of cosmic Spaceal
Space and energy. This would normal. The Super Slow moving
Thing would be moved it inter Spaceal Space outer layer.
at some given movement through outer Inter Spaceal layer,
do to its Super Slow Speed. - Inter Spaceal Space energy then
equally pushed it back to normal Space. Equal balance
fields of gravitational Spaceal Space energy.

2) What could then bring this something back in normal
space. Something come through Inter Space with the Spaceal
energy mass and matter to hit it or just move it in to
normal Space. Should it come out on earth in or ~~not~~ Next
the earth [earthquakes, volcanos, people, and others could
The be forced in a natural earth door and Time door.

Equal Balance Rotation Stop

- (1) Tree, mountain are at a equal balance Rotation Stop. energy, mass and Spaceal matter that has come a Rotational earth Speed Stop. but is moving at 33,000 per hour. To the human mind and eyes it has stopped. but this state of stopped is movement. Should it be slower then the earth Rotation then it would equal balance Solar system Rotation and slower then that, universal Rotation equal balance. It would have move slower then it to become Super slow moving Spaceal energy, mass and matter would or can then only travel in the outer layers of Inter Spaceal space and maybe Inter Space and Sub Space.
- (2) Super slow moving Spaceal energy, mass and matter is normal. it would act like counter balancing and total equal to Super fast moving Spaceal energy and mass and matter. This could give idea to a normal universal Rotational spaceal space smaller in given size and shape, but in total equal spaceal space energy mass and matter of the natural movement.

3) Super Slow moving equal balance Spacial Space
would then counter equal the given balance of
normal Spacial Space. an new Space area.

Super Slow moving equal balancing Spacial Space.
To have natral earth doors, Time doors, unisderal doors.
you would need a Super Slow moving Spacial Space
equal balance, To have Inter Spacial Space area.
Super Slow moving equal balance Spacial Space area
? Planets, Solar System and galaxie? action as a
equal counter balancing State.

4) Atomic State of energy, Spacial Space mass and matter
in equal balance Rotation State of normal Space and
Super Slow equal balance of Spacial Space area.
as a given iceda Then Anti-Spacial Space area would
not have a anti Super Slow Spacial Space. You would
only need one.] a Super Nova = a Star in normal Space.
being hit by a Star of equal balance in Super Slow
equal balance Spacial Space. and so on.

5) Outer Spacial Space out-Side the univers, equal balance Rotation.
Outer and ~~inter~~ in side the univers, equal galaxar Spacial Space
equal Solar System balance Rotational Spacial Space] [equal
ounter balancing Spacial Space area] That is equal to
ormal Space, that equals Outer layer Inter Spacial Space to Inter
Spacial Space To Sub-Spacial Space and on.

Jan / 14 / 2005

Spaceal Space math

(1) $0+0=1$] ~~should you~~
~~have two math~~
~~give sizes it would~~
 equal One

(2) $0-0=7$] and it can
 be 0. Spaceal Space area

(3) $0 \times 0 = 3$] can be 3 or
 33 Spaceal
 Space area per
 given space

(4) $0 \div 0 = 11$] in normal
 universal Spaceal
 Space area can be
 12.] note should the given
 size of space be greater then
 or less then the total it
 may become a state
 of + and - math.

Please do no Run ~~through~~
 through a computer it will
 set an inter government System.
